Redemption amount The redemption amount per VONCERT Open End on termination date corresponds to the base price multiplied by the ratio and by the performance factor, if applicable converted into the reference currency:
Redemption amount = Reference price of the certificate * Ratio * Performance factor

Performance factor The performance factor of the underlying on termination date corresponds to the performance of the underlying less Management Fee and is calculated with the following formula:

$$\prod_t \left(\frac{B_t}{B_{t-1}} - Fee \frac{d_t}{360} \right)$$

Where:

t are the trading days during the lifetime of the VONCERT Open End

B_t is the reference price of the underlying at the end of the trading day t (B₀ = Reference price of the underlying at initial fixing)

Fee_t is the management fee

d_t is the number of calendar days between t-1 and t

Reference price Is the closing price of the underlying determined by the place of determination on a trading day.

Management fee 1.2% p.a.

Currency-hedged No

Prospects Of Profit And Losses

VONCERT Open End are tracker certificates which allow participating in an underlying instrument's performance in a transparent way and with a single transaction.

Any potential profit consists of the positive difference between the sales price achieved, i.e. the redemption price, and the purchase price. VONCERT Open End do not provide ongoing revenues. The value of the VONCERT Open End during their term is significantly influenced by the price development of the underlying instrument resp. its components.

A loss is made if the VONCERT Open End are sold or redeemed at a lower rate than the purchase price paid.

Such a loss scenario can arise if the underlying instrument develops negatively due to value-determining factors, such as interest rate developments and changes to the rating or creditworthiness of basket components. Therefore, the price of the VONCERT Open End may fall significantly below the issue price/purchase price during the term and/or on maturity, which results in a corresponding loss. VONCERT Open End have no capital protection. The maximum loss can lead to a loss of the capital invested.

Assumptions and limitations in preparing the market scenarios

The following market scenarios should afford the investor a simplified way of making an assessment of the significant factors that influence the investment performance of the certificate. For a precise analysis of the profit and loss scenarios, reference must be made to the formulas and definitions set out in this termsheet, (e.g. for "reimbursement"), because these scenarios have been deliberately simplified in order to make them better understandable. With the exception of those certificates for which one of the following factors is defined as the underlying (e.g. a currency certificate or a certificate of interest), the impact of these risk factors will be excluded from the simplified presentation of the scenario

- Foreign currency risks
- Interest rate risks
- Volatility risks
- Issuer risk

Market scenarios

Fees and costs both stemming from the certificate and for the acquisition and holding of the certificate

Maximum gain: Underlying performance

Maximum loss: 100%

Positive scenario:

Indicative performance of the certificate: 0% to underlying performance

Necessary market performance of underlying:

- Proportional participation in positive market performance

Break even:

Indicative performance of the certificate: 0%

Necessary market performance of underlying:

- Closing price of underlying = reference price level at the time of the investment

Negative scenario:

Indicative performance of the certificate: Loss of up to 100% possible

Necessary market performance of underlying:

- Closing price of underlying is lower than the reference price level at the time of the investment

Significant Risks For Investors

Currency risks

If the underlying or underlyings is/are denominated in a currency other than the product's reference currency, investors should bear in mind that this may involve risks due to fluctuating exchange rates and that the risk of loss does not only depend on the performance of the underlying(s) but also on any unfavourable performance of the other currency or currencies. This does not apply for currency-hedged products (quanto structure).

Market risks

The general market performance of securities is dependent in particular on the development of the capital markets which, for their part, are influenced by the general global economic situation as well as by the economic and political framework conditions in the respective countries (so-called market risk). Changes to market prices such as interest rates, commodity prices or corresponding volatilities may have a negative effect on the valuation of the underlying(s) or the structured product. There is also the risk of market disruptions (such as trading or stock market interruptions or discontinuation of trading) or other unforeseeable occurrences concerning the respective underlyings and/or their stock exchanges or markets taking place during the term or upon maturity of the structured products. Such occurrences can have an effect on the time of redemption and/or on the value of the structured products. In the event of trading restrictions, sanctions and similar occurrences, the issuer is entitled, for the purpose of calculating the value of the structured product, to include at its own discretion the underlying instruments at their most recently traded price, at a fair value to be established at its sole discretion or indeed as worthless, and/or additionally to suspend pricing in the structured product or liquidate the structured product prematurely.

Secondary market risks

Under normal market conditions, the issuer or the lead manager intend to post bid- and ask-prices on a regular basis. However, neither the issuer nor the lead manager is under any obligation with respect to investors to provide such bid- and ask-prices for specific order or securities volumes, and there is no guarantee of a specific liquidity or of a specific spread (i.e. the difference between bid- and ask-prices), for which reason investors cannot rely on being able to purchase or sell the structured products on a specific date or at a specific price.

Issuer risk

The value of structured products may depend not only on the performance of the underlying(s), but also on the creditworthiness of the guarantor, which may change during the term of the structured product. The investor is exposed to the risk of default of the guarantor. For further information on the rating of Bank Vontobel AG or Vontobel Holding AG, please see the issuance programme.

Restrictions on sales

U.S.A., U.S. Subjects, UK, DIFC/Dubai

European Economic Area (EEA): Investors should note the selling restrictions: since neither this termsheet nor the issuance programme meets the requirements of the EU Prospectus Directive, the implementing regulations or the national transposing measures, this security may not be publicly offered for sale within the European Economic Area (EEA) until a corresponding prospectus has been drawn up and approved by the supervisory authority, unless: (a) this offer is aimed exclusively at qualified investors, (b) this offer is aimed at fewer than 150 investors in total in each state in the EEA, (c) the minimum investment amount per investor is EUR 100,000 or the securities have a minimum nominal value of EUR 100,000, or (d) the selling price of all the securities offered is less than EUR 100,000.

Further risk information and selling restrictions

Please also note the additional risk factors and selling restrictions set out in detail in the issuance programme.

Legal Notices

Product documentation

Only the Termsheets published at www.derinet.ch along with the associated notices and adjustments shall be legally valid.

The original version of the Termsheet is in German; foreign-language versions constitute non-binding translations. The issuer and/or Bank Vontobel AG is entitled to correct spelling mistakes, calculation or other obvious errors in this Termsheet and to make editorial changes, as well as to amend or supplement contradictory or incomplete provisions, without the consent of the investors.

Up until the initial fixing date, the product terms designated as such of the "Termsheet (Indication)" are indicative and may be adjusted. The issuer is under no obligation to issue the product. The "Termsheet (Final Terms)", which is usually issued on the date of the initial fixing, contains a summary of the most important final terms and information, and constitutes the "Final Terms" pursuant to art. 21 of the Additional Rules for the Listing of Derivates of SIX Swiss Exchange. Together with the current issuance programme, registered with SIX Swiss Exchange (the „Issuance Programme“), the Final Terms constitute the complete listing prospectus according to the Listing Rules. In the event of discrepancies between this Termsheet and the Issuance Programme, the provisions of the Final Terms shall take precedence.

For structured products not listed on the SIX Swiss Exchange, the Termsheet (Indication) constitutes the preliminary simplified prospectus and Termsheet (Final Terms) constitutes the definitive simplified prospectus pursuant to art. 5 of the Federal Act on Collective Investment Schemes (CISA). In addition, reference is also made (with the exception of the provisions authoritative for a listing) to the Issuance Programme, in particular to the detailed information on risks contained therein, to the General Terms and Conditions and to the descriptions of the corresponding product types.

During the entire term of the structured product, all documents may be ordered free of charge from Bank Vontobel AG, Financial Products documentation, Bleicherweg 21, 8002 Zurich (telephone: +41 (0)58 283 78 88) and may also be downloaded on the www.derinet.com website. Vontobel explicitly rejects any liability for publications on other Internet platforms.

Further information

The list and information shown do not constitute a recommendation concerning the underlying in question; they are for information purposes only and do not constitute either an offer or an invitation to submit an offer, or a recommendation to purchase financial products. Indicative information is provided without warranty. The information is not a substitute for the advice that is indispensable before entering into any derivative transaction. Only investors who fully understand the risks of the transaction to be concluded and who are commercially in a position to bear the losses which may thereby arise should enter into such transactions. Furthermore, we refer to the brochure "Special Risks in Securities Trading" which you can order from us. In connection with the issuing and/or selling of structured products, companies from the Vontobel Group can pay reimbursements to third parties directly or indirectly in different amounts (for details see "Figures for fees and charges"). Such commission is included in the issue price. You can obtain further information from your sales agent upon request. We will be happy to answer any questions you may have concerning our products on +41 (0)58 283 78 88 from 08.00 – 17.00 CET on bank business days. Please note that all calls to this number are recorded. By calling this number, your consent to such recording is deemed given.

Material changes since the most recent annual financial statements

Subject to the information in this Termsheet and the Issuance Programme, no material changes have occurred in the assets and liabilities, financial position and profits and losses of the issuer/guarantor since the reporting date or the close of the last financial year or the interim financial statements of the issuer and, as the case may be, of the guarantor.

Responsibility for the listing prospectus

Bank Vontobel AG takes responsibility for the content of the listing prospectus and hereby declares that, to the best of its knowledge, the information is correct and that no material facts or circumstances have been omitted.
