**Product Description**

These products are characterised by one or several guaranteed Coupons, several Barriers as well as by a – albeit only conditional – redemption at the Nominal Value. If all Underlyings close at or above their Autocall levels on a Monitoring date, the Nominal Value together with a Coupon is repaid early (for details see "Early Redemption" as well as "Coupon payments"). If no Early Redemption has been made, the following settlement conditions shall apply upon maturity: A redemption at the Nominal Value is guaranteed as long as the Underlyings have not touched their Barriers during the relevant Barrier monitoring. If one of the Underlyings has touched its Barrier but at Final Fixing all Underlyings are again higher than or equal to the respective Strike Prices, the Nominal Value is repaid. If, however, one of the Underlyings has touched its Barrier during Barrier Monitoring and at Final Fixing at least one of the Underlyings closes lower than the corresponding Strike Price, the investor receives the delivery of the Underlying with the poorest performance or a cash compensation, corresponding to the closing price of this Underlying (for details see "Redemption/Delivery").

Initial Fixing 25 May 2018; Closing prices on the reference stock exchanges (28 May 2018 for Tencent Holdings Ltd)

Payment Date 04 June 2018

Last Trading Day 25 November 2019 (12:00 PM, local time Zurich)

Final Fixing 25 November 2019; Closing price on the reference stock exchange

Repayment Date 03 December 2019

Reference Currency USD; issue, trading and redemption are in the Reference Currency

Currency-hedged Yes (Quanto USD). The redemption is not subject to the exchange rate between Underlying currency and Reference Currency

ISIN / Security Number / Symbol CH0414250321 / 41425032 / RMLB7V

Early Redemption If all Underlyings close at or above their corresponding Autocall levels on an Early Redemption Monitoring date, the issuer redeems the product on the next Payment date. The redemption is made at the Nominal Value, plus one last coupon for the corresponding period. (Detail see "Coupon Payments"). No further payments are made.

Redemption / Delivery Provided that no Early Redemption has been made (Detail see "Early Redemption"), the following rule is applied on the Final Fixing date:

- If none of the Underlyings touches or breaches its Barrier during Barrier Monitoring, at Repayment Date the Broad Value is repaid - in addition to the Coupon.
- However, if at least one of the Underlyings touches or breaches its Barrier during Barrier Monitoring, repayment is as follows:
  1. If at Final Fixing all closing prices of the Underlyings are higher than or equal to the corresponding Strike price, the Nominal Value is repaid. In addition, the Coupon is paid out at Repayment Date.
  2. If at Final Fixing the closing price of at least one Underlying is lower than the corresponding Strike Price, the Nominal Value is repaid, less the percentage difference between the Strike price and the closing price of the Underlying with the poorest performance. In addition, the Coupon is paid out at Repayment Date.

Further Information

Issue size USD 25'000'000, with the option to increase

Title The structured products are issued in the form of non-certificated book-entry securities of the issuer.

Depository SIX SIS AG

Clearing / Settlement SIX SIS AG, Euroclear Brussels, Clearstream (Luxembourg)

Applicable Law / Jurisdiction Swiss law / Zurich 1, Switzerland

Publication of notices and adjustments All notices to investors concerning the products and adjustments to the product terms (e.g. due to corporate actions) are published under the "Product history" of the respective product at www.derinet.com. In the case of products listed at SIX Swiss Exchange notifications are published at www.six-swiss-exchange.com in accordance with applicable rules, too.

Early termination Only for fiscal or other extraordinary reasons, as well as in case of no outstanding positions (as specified in detail in the issuance programme).

Secondary market trading Throughout the entire term a secondary trading is conducted. Indicative daily prices of this product are available at www.derinet.com.

Price setting Secondary market price quotations are "dirty", that is, accumulated interest is included.

Listing Will be applied for in the main segment at the SIX Swiss Exchange

Minimum investment USD 1'000.00 nominal value

Minimum trading lot USD 1'000.00 nominal value
Vontobel estimates the Issuer Estimated Value (IEV) of this product at 97.75%, which gives a Total Expense Ratio (TER) of 1.50% p.a.. Distribution charges up to 0.67% p.a. are included in this TER figure.

Bank Vontobel AG is authorised as a bank and securities dealer in Switzerland and is subject to prudential supervision by the Federal Financial Markets Regulator (FINMA), while Vontobel Holding AG and Vontobel Financial Products Ltd. as group member companies are subject to complementary, consolidated group supervision by the FINMA. Vontobel Financial Products Ltd. is registered in the register of the Dubai International Finance Centre as a non-regulated company. Neither Vontobel Financial Products Ltd. nor Vontobel Holding AG are financial intermediaries subject to prudential supervision within the meaning of art. 5 para.1 subpara. a ciph. 1.-4. of the CISA.

This product does not qualify for predominantly one-off interest payments (Non-IUP). The coupons consist of two components: the premium component, which in Switzerland qualifies as a tax-free capital gain, and the interest component, which in Switzerland is subject to direct federal tax (maturity principle). For foreign currency products, please note that the daily exchange rates applied may constitute a key factor.

Secondary market transactions are subject to the swiss turnover tax (TK22). If delivery of the underlying is stipulated, the swiss turnover tax may be imposed as well.

Transactions and payments relating to this product may be subject to further (foreign) transaction taxes, duties and/or withholding taxes, in particular a withholding tax pursuant to the Section 871(m) of the US Internal Revenue Code. All payments from this product will occur with any applicable taxes and duties deducted.

The taxation mentioned is a non-binding and non-exhaustive summary of the applicable treatment of Swiss-domiciled private investors for tax purposes. The investor's specific circumstances, however, are not taken into account. We point out that Swiss and/or foreign tax law or the authoritative practice of Swiss and/or foreign tax authorities can change at any time or specify further tax or charge liabilities (possibly even with retrospective effect).

Potential investors should have the tax effects of the purchase, holding, sale or repayment of this product examined by their own tax adviser - especially with respect to the effects of taxation under another jurisdiction.

Prospects of Profit and Losses

Any possible gain results from the guaranteed fixed coupons. Nevertheless, there is an upper limit to the gain, as the maximum payment is the Nominal Value plus the coupons. If all the underlyings close at or above their Autocall-levels on a monitoring date, the product is repaid early (detail see "Early Redemption"). These products have only conditional repayment at the Nominal Value defined by the individual Barriers: If at least one of the Underlyings touches or breaches its Barrier during Barrier monitoring, the right of a guaranteed repayment at the Nominal Value ceases to apply immediately. Investors should be aware that this can happen during relevant Barrier Monitoring (period of time or point(s) of time). Accordingly, the risks are considerable; given upwardly limited chances of gains, they correspond largely to the risks of a direct investment in the Underlying with the poorest performance. The lower the closing price of the Underlying with the poorest performance after falling below its Barrier, the greater the losses sustained. Apart from the coupon payments, in extreme cases, the maximum loss can lead to a loss of the capital invested. Even if the performance of the Underlyings is positive and the Barriers are not touched, the price of the product during the term can be considerably below the Issue Price. Potential investors should bear in mind that price changes to the Underlyings, as well as other influencing factors, may have a negative effect on the value of structured products.

Assumptions and limitations in preparing the market scenarios

The following market scenarios should afford the investor a simplified way of making an assessment of the significant factors that influence the investment performance of the certificate. For a precise analysis of the profit and loss scenarios, reference must be made to the formulas and definitions set out in this termsheet, (e.g. for "reimbursement"), because these scenarios have been deliberately simplified in order to make them better understandable. With the exception of those certificates for which one of the following factors is defined as the underlying (e.g. a currency certificate or a certificate of interest), the impact of these risk factors will be excluded from the simplified presentation of the scenario

- Foreign currency risks
- Interest rate risks
- Volatility risks
- Issuer risk
- Reference bond ("default or redemption event")
- Fees and costs both stemming from the certificate and for the acquisition and holding of the certificate

Significant Risks for Investors

Currency risks
If the underlying or underlyings is/are denominated in a currency other than the product's reference currency, investors should bear in mind that this may involve risks due to fluctuating exchange rates and that the risk of loss does not only depend on the performance of the underlying(s) but also on any unfavourable performance of the other currency or currencies. This does not apply for currency-hedged products (quanto structure).

Market risks
The general market performance of securities is dependent in particular on the development of the capital markets which, for their part, are influenced by the general global economic situation as well as by the economic and political framework conditions in the respective countries (so-called market risk). Changes to market prices such as interest rates, commodity prices or corresponding volatilities may have a negative effect on the valuation of the underlying(s) or the structured product. There is also the risk of market disruptions (such as trading or stock market interruptions or discontinuation of trading) or other unforeseeable occurrences concerning the respective underlyings and/or their stock exchanges or markets taking place during the term or upon maturity of the structured products. Such occurrences can have an effect on the time of redemption and/or on the value of the structured products.

In the event of trading restrictions, sanctions and similar occurrences, the issuer is entitled, for the purpose of calculating the value of the structured product, to include at its own discretion the underlying instruments at their most recently traded price, at a fair value to be established at its sole discretion or indeed as worthless, and/or additionally to suspend pricing in the structured product or liquidate the structured product prematurely.

Secondary market risks
Under normal market conditions, the issuer or the lead manager intend to post bid- and ask-prices on a regular basis. However, neither the issuer nor the lead manager is under any obligation with respect to investors to provide such bid- and ask-prices for specific order or securities volumes, and there is no guarantee of a specific liquidity or of a specific spread (i.e. the difference between bid- and ask-prices), for which reason investors cannot rely on being able to purchase or sell the structured products on a specific date or at a specific price.

Issuer risk
The value of structured products may depend not only on the performance of the underlying(s), but also on the creditworthiness of the guarantor, which may change during the term of the structured product. The issuer is exposed to the risk of default of the guarantor. For further information on the rating of Bank Vontobel AG or Vontobel Holding AG, please see the issuance programme.

Selling Restrictions

Further risk information and selling restrictions
Please also note the additional risk factors and selling restrictions set out in detail in the issuance programme.

Legal Notices

Product documentation
Only the Termsheets published at www.derinet.ch along with the associated notices and adjustments shall be legally valid. The original version of the Termsheet is in German; foreign-language versions constitute non-binding translations. The issuer and/or Bank Vontobel AG is entitled to correct spelling mistakes, calculation or other obvious errors in this Termsheet and to make editorial changes, as well as to amend or supplement contradictory or incomplete provisions, without the consent of the investors.

The "Termsheet (Final Terms)", which is usually issued on the date of the initial fixing, contains a summary of the most important final terms and information, and constitutes the "Final Terms" pursuant to art. 21 of the Additional Rules for the Listing of Derivates of SIX Swiss Exchange. Together with the current issuance programme, registered with SIX Swiss Exchange (the „Issuance Programme“), the Final Terms constitute the complete listing prospectus according to the Listing Rules. In the event of discrepancies between this Termsheet and the Issuance Programme, the provisions of the Final Terms shall take precedence.

For structured products not listed on the SIX Swiss Exchange, the Termsheet (Final Terms) constitutes the definitive simplified prospectus pursuant to art. 5 of the Federal Act on Collective Investment Schemes (CISA). In addition, reference is also made (with the exception of the provisions authoritative for a listing) to the Issuance Programme, in particular to the detailed information on risks contained therein, to the General Terms and Conditions and to the descriptions of the corresponding product types.

During the entire term of the Structured Product, all documents may be ordered free of charge from Bank Vontobel AG, Financial Products documentation, Bleicherweg 21, 8002 Zurich, Switzerland (telephone: +41 58 283 78 88) and may also be downloaded on the www.derinet.com website. Vontobel explicitly rejects any liability for publications on other Internet platforms.

Further information
The list and information shown do not constitute a recommendation concerning the underlying in question; they are for information purposes only and do not constitute either an offer or an invitation to submit an offer, or a recommendation to purchase financial products. Indicative information is provided without warranty. The information is not a substitute for the advice that is indispensable before entering into any derivative transaction. Only investors who fully understand the risks of the transaction to be concluded and who are commercially in a position to bear the losses which may thereby arise should enter into such transactions. Furthermore, we refer to the brochure "Special Risks in Securities Trading" which you can order from us. In connection with the issuing and/or selling of structured products, companies from the Vontobel Group can pay reimbursements to third parties directly or indirectly in different amounts (for details see "Figures for fees and charges"). Such commission is included in the issue
price. You can obtain further information from your sales agent upon request. We will be happy to answer any questions you may have concerning our products on +41 58 283 78 88 from 08.00 – 17:00 CET on bank business days. Please note that all calls to this number are recorded. By calling this number, your consent to such recording is deemed given.

**Material changes since the most recent annual financial statements**

Subject to the information in this Termsheet and the Issuance Programme, no material changes have occurred in the assets and liabilities, financial position and profits and losses of the issuer/guarantor since the reporting date or the close of the last financial year or the interim financial statements of the issuer and, as the case may be, of the guarantor.

**Responsibility for the listing prospectus**

Bank Vontobel AG takes responsibility for the content of the listing prospectus and hereby declares that, to the best of its knowledge, the information is correct and that no material facts or circumstances have been omitted.

Zurich, 25 May 2018
